6th International Exhibition of Photography PHOTO EMOTION 2017

1. ORGANIZER

University Photo Cinema Club - Banja Luka & Foto Art – Banja Luka.

2. PARTICIPATION

6th International Exhibition of Photography PHOTO EMOTION 2017

Photographers from all over the world have the right to participate.

The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions. Entries are limited to not more than 4 images per section, category, or class. An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in each section.

Distribution of images shall be in the same round order as submitted by the entrant.

Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his own (aliases are not permitted). The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors.

The exhibition assumes no liability of any misuse of copyright. Images may be altered, either electronically or otherwise, by the maker. All final work must be on photographic film, or on electronic file, or on photographic or electronic print material, mounting excepted, subject to Nature, Photo Travel and Photojournalism divisional restrictions.

No title or identification of the maker shall be visible anywhere on the face of an image, print mat or mount entered in a PSA Recognized exhibition.

Each image must have a unique title. Once an image has been accepted in a PSA Recognized exhibition, that same image, or a like "in camera" or a "reproduction" duplicate of that image:

- i. May not be re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title.
- ii. May not be re-titled for entry in any other PSA Recognized exhibition.

Words such as "Untitled" and "No Title" are not acceptable as part or all of an image's title, nor are camera capture filenames.

All parts of the image have to be photographed by the author who is holding the copyright of all works submitted.

3. THEMES

FIAP AND PSA DEFINITIONS

FIAP Definition

“By the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP; that FIAP will use any means at its disposal for this undertaking; that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP and that in case of sanctions following the non compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations.”

FIAP Monochrome Definition:

A black and white image containing various shades of grey from black to white is considered to be monochrome w. A black & white work toned entirely in a single colour will remain a monochrome work able to stand in the black & white category; such a work may be reproduced in black & white in the catalogue. On the other hand a black and white work modified by partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category.

PSA Monochrome Definition:

An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of gray which can include pure black and pure white) OR it gives the impression of being a grayscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.) A grayscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi-toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.

“All entries shall conform to the stricter or these definitions for acceptances to be validated by all the International Organizations granting recognition or patronage.”
